Thank you for entering Wet and Wild Session 1, 2016.

Across the State we have some amazing researchers and some of you even managed to find different animals or plants that matched our clues. However, all the clues had to fit the four species. Here is a TIP: Read the clues carefully.

Seagrass 1 7 8 15 17 22

We also accepted – Turtle grass, Fireball weed, Eelgrass, Ribbon weed

Jacky Dragon 2 4 14 16 21 23

We also accepted – Nobbi Dragon

Wandering Albatross 5 9 12 18 20 24

We also accepted – Southern Royal Albatross, Snowy Albatross

Australian Fur Seal 3 6 10 11 13 19

We also accepted – Brown Fur Seal

Please Help:
We have been overwhelmed by the number of entries this year and ask for your help to speed up marking.

1. Have your clues in by the deadline, 3:00pm each Friday.
2. Please put the clues in numerical order on the answer sheet.

The easier you make it on the markers the quicker the scores and answers will be posted.

Thank you
